Davyd Konstantinov

Junior QA Tester / IS Tester | Manual testing, bug reports | Remote

Bratislava, Slovakia | +421 910 392 871 | davidcoolld@gmail.com | Portfolio with videos: davidcooll23.github.io

Profile

I test everything I build. Each bot and automation in my portfolio was checked by hand before release: the normal path, wrong input, duplicates, restarts and outages. I write bug reports a developer can reproduce in one go and re-check every fix. I use AI assistants for test ideas and checklists, and I read basic HTML, CSS and JavaScript.

What I bring

- Manual and exploratory testing of chat bots, web forms and integrations
- Bug reports: steps, expected vs actual result, logs and screenshots
- Test checklists and regression re-checks after every change
- Security basics: secrets kept out of code, Semgrep and gitleaks scans
- Git/GitHub, Google Sheets, Windows; communication in UA, RU, EN, SK

What I tested in my projects

Salon booking bot with AI assistant | Telegram

Booking flow end to end: taken slots, cancellations, wrong dates, questions the AI should not answer.

Classifieds monitor | Python

Filters, duplicate protection, restart behaviour and the alert when the source stops responding.

Website leads to Google Sheets + Telegram | n8n

Webhook rejects requests without the secret header; every valid lead reaches both the sheet and Telegram.

PC Music Remote | Wear OS + Windows

Pairing and reconnection between a watch and a PC on a real device and network.

All projects are my own, built with AI assistants (Claude Code) as the main tool; videos on the portfolio site.

Work experience

Warehouse worker, forklift operator (VZV), HOLLEN, Slovakia. October 2025 - present.

Languages

Ukrainian, Russian: native.
English: B2, confident written communication.
Slovak: strong comprehension, everyday spoken communication.

Availability

Lives in Bratislava since 2022. Slovak residence permit for employment approved (jednotné povolenie); a new employer needs a labour office confirmation (potvrdenie ÚPSVaR) to hire me. Fully remote, full-time or part-time; employment contract with a Slovak employer or via an EOR.

Education

Central Ukrainian National Technical University, Kropyvnytskyi, Ukraine. September 2018 - June 2022.
